## **DETAILED ACTION**

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions
be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To
ensure consideration of such an amendment, it MUST be submitted no later than the payment
of the issue fee.

- 2. Authorization for this examiner's amendment was given in a telephone interview with Darrin A. Auito (56,024) on August 30, 2005.
- 3. The application has been amended as follows:
  - In claims 5 and 13, rewrite "the magneto-sensitive device is a Hall sensor" as "the plurality of magneto-sensitive elements are Hall sensors."

## Allowable Subject Matter

- 4. Claims 1-16 are allowed.
- 5. The following is an examiner's statement of reasons for allowance:
  - With respect to claims 1 and 9, the Prior Art does not disclose detecting a present stage number based on the current angular position of the rotor based on the outputs of a plurality of magneto-sensitive elements, an initializer/initializing means that moves a movable member to a forward or backward traveling limit within a moveable range so as to set the detected present stage number as the forward traveling limit or backward traveling limit stage number, respectively; and a speed reducer/reducing means that reduces the speed of the rotor by reducing power carried by the driving pulses when the detected present stage number is equal to either one of the forward or backward limit

stage number. Also note that the examiner has interpreted claim 1 according to 35 U.S.C. 112, sixth paragraph because it uses "means plus function" language.

Page 3

- 6. Therefore, based on the arguments and amendments presented by the Applicant, the Examiner acknowledges the Prior Art fails to make obvious the Applicant's claimed invention.
- 7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick Miller whose telephone number is 571-272-2070. The examiner can normally be reached on M-F, 8:30-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2800 ext 41. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9318.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-3431.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
